DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-2 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Ogata et al (JP 2002-212463A).

Ogata et al. teach a film-forming liquid used to produce a composite for film production. The composite includes amorphous titanium peroxides in the presence of such substances as copper chloride, a suitable copper compound as disclosed by applicant (see page 14 of the present specification).

Ogata et al. do not appear to specify that the product has non-photocatalytic properties.

As like materials are used and formed in a like manner to that claimed and taught by applicant, the product taught by Ogata et al. is expected to display non-photocatalytic properties as claimed.

Response to Arguments

Applicant's arguments, see the Remarks, filed 11/29/07, with respect to the rejection(s) of claim(s) 1-2 under 35 USC 102(a) have been fully considered and are persuasive. In particular, the rejection was erroneously placed under 35 USC 102(a) rather than 102(b). Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of the same references under 35 USC 102(b) as JP '463 was published July 31, 2002, more than a year prior to the filing date of November 4, 2003.
